

VANROYCE

A NAME WE LIVE UP TO

Memorable holidays in unforgettable luxury.....

almost every conceivable extra is fitted as standard to Vanroyce caravans!

What's new for 1991? Newly styled windows, a space-saving tip up basin in the shower compartment, installation of a 'Cascade' water heater with immersion heater, central heating by 'Carver', an improved and completely unique domestic water system and probably our most popular modifications this year, pull-out gas bottle drawers.

Modifications to the outside are equally comprehensive with a completely restyled body including new front and rear panels and a new fibre-glass roof contoured to remove the traditional sharp edges which in total makes the outside profiles distinctive by their design and are now probably the most aerodynamic caravans available.

The addition of a new caravan, now means

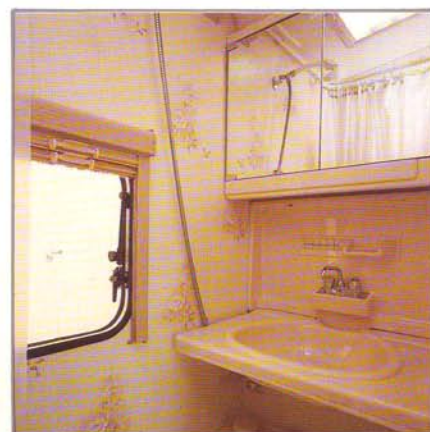

we can offer a choice of eight sizes/layouts covering all needs. From the compact luxury of the 365, the ideal introduction to caravanning, to the comprehensive range of 2 and 4 berths, and finally the ultimate in five star family living in the 518/5 five berth.
